Title 24, JA8
& Getting Involved

CALIFORNIA
JA8
TITLE 24
COMPLIANT LAMP

Susan Larson

Jim Benya

Clifton Stanley Lemon

David Wilds Patton

Kelly Cunningham

John Martin

With Special Guest Simon Lee, California Energy Commission

Agenda

6:15- 7:15 pm Presentations

Clifton Stanley Lemon -Introduction

Jim Benya: Overview – Process & History

John Martin: Current joint efforts with IES/CEA/IALD

Susan Larson: T20, T24/JA8 Explainer

Kelly Cunningham: Utility Role; planned changes; resources

David Wilds Patton: Why your feedback will have an impact

Simon Lee: brief perspective from CEC

7:15-8:15 Panel Discussion

Prepared topics

Audience Participation

Do This Now!

The screenshot shows the homepage of the California Energy Code Stakeholders website. At the top left is the California Energy Code & Standards logo. The navigation menu includes: About Us, Public Meetings, 2022 Cycle, 2019 Cycle, Previous Cycles, Future Code Cycles, and Building Energy Modeling. The main content area features a large image of a modern apartment building with a white text box overlaid. The text box contains the heading "California Energy Code Stakeholders" and a paragraph: "This website is a resource for stakeholders to voice their opinion about proposed Title 24, Part 6 code changes, get information about how to become involved in the code change process, and see past measure proposals." Below the paragraph is a blue "Learn More" button. At the bottom of the page is a grey banner with the text "Get Email Updates" and two small numbered icons (1 and 2).

The screenshot shows the "Add Comment" page on the California Energy Commission's e-filing website. The header includes the CA.GOV logo and the California Energy Commission logo. The navigation menu includes: Home, About Us, Analysis & Stats, Efficiency, Funding, Power Plants, Renewables, Research, and Transportation. The main content area is titled "Add Comment" and includes a note: "Fields denoted by an asterisk (*) are required." Below this is a dropdown menu labeled "Select a Proceeding*" with the selected option "2016 Nonresidential Lighting Alteration Enforcement" and a search icon. To the right of the dropdown is a link "or View All Projects". Below the dropdown is a blue "Continue" button. At the bottom of the page is a footer with the text: "For any questions regarding e-commenting, please send an e-mail to CommercialInnovation@ceca.ca.gov, or call 800-822-4228 or 916-654-4488." The footer also includes links for Accessibility, Conditions of Use, and Privacy Policy, and a copyright notice: "Copyright © 2016 State of California."

What's a Stakeholder?

stake·hold·er
/'stāk_hōldər/

noun

1. (In gambling) An independent party with whom each of those who make a wager deposits the money or counters wagered.
2. A person with an interest or concern in something, especially a business.

California Leads in Regulatory Affairs

L.A. when I was a kid

L.A. today
(most of the time)

Common Attitudes (Paraphrased)

Designer:
I hate T24! I just want to design!

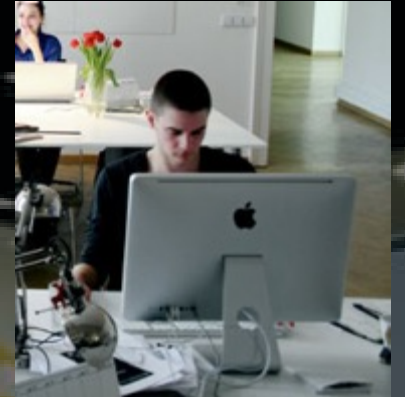

Contractor:
We'll just do the minimum possible for compliance, but now even that's getting too complicated.

Officials:
We don't have time or resources to enforce the codes.

Manufacturer:
We don't get enough notice or info on codes to comply.

Rare Code Geek:
I commented on the CEC website but I don't even know if my comments were acknowledged or made a difference.

What Can Happen When Codes Don't Work?

Non Compliance (Willful or otherwise)

Erosion of Faith in Government

Stifling of Innovation and Growth

Power Shifts from Government to Corporations

Increased Inequality & Inefficiency

Increased Environmental Degradation

Close the Gap Between Technology & Government

Your Voice Matters

We all speak up, you can too!

Do ASAP!

Have an idea for change for the next code cycle? Contact the CA Energy Commission or organizations submitting proposals (IOUs, CEA). Don't wait!

Have a need for tools, training or resources to get ready for the 2019 cycle? Linger questions on the 2016 cycle? energycodeace.com

We Do!

Panel Discussion Topics

How can we use IT to improve the regulatory process?

What does streamlining code actually look like? How does it happen?

What's the prognosis for outcome based codes?

What happens when enforcement becomes untenable?

What are the behavioral drivers for stakeholders to get more involved?

What happens when there's no more efficiency left to capture?

Do we really understand the relationship between quality and efficiency?
